

VICTORY FOR THE NEW MOVEMENT:

*Congratulations to the combined power of the immigrant rights movement of 2006 and the movement for justice for George Floyd!
Thank you, Minneapolis, for the days of struggle for George Floyd!*

DACA stays!

NEXT: THE MOVEMENT NEEDS TO REMOVE TRUMP HIMSELF, NOW. THE REAL POWER IS IN THE STREETS

NATIONAL DAY OF ACTION on court date for George Floyd's murderer cops

Jail Derek Chauvin and ALL killer cops * Donald Trump must resign or be removed * Our REAL power is in the streets!

Mon. June 29th at 6:00 pm
Oscar Grant Plaza (14th St. /
Broadway, Oakland)

On Monday June 29th, Derek Chauvin, George Floyd's racist murderer, along with his co-conspirators Tao Thao, Thomas Lane, and K. Alex Keung, will have their

next court date. Our movement must come out to the streets in force to demand their conviction and jailing! Over the last month, a new civil rights movement has emerged and has shaken the political establishments in America. Our movement has won more victories at the local and national level than the politicians who have been speechifying for the last 50 years. Our movement has forced major victories at the Supreme Court, protecting LGBTQ rights in the workplace and upholding DACA for almost one million undocumented immigrant youth.

We have dealt Donald Trump major defeats, weakening him and his re-election chances. Politicians are struggling to contain our movement and trying to shut it down by focusing on elections and local

reforms while trying to force everyone back to work through an insane policy of reopening the economy in the middle of a raging COVID-19 pandemic. We cannot be deceived or allow our movement to abandon the streets. Now is the time to redouble our efforts as we are winning victories. Killer cops must be jailed. The authoritarian regime of Donald Trump and Mike Pence can be defeated if we keep marching to demand that Trump resign or be removed now. This will only happen if our movement is demanding it on the streets. Victory is possible as long as we continue marching.

**Keep safe from COVID-19:
always wear a mask in public*

Today the U.S. Supreme Court, by a 5-4 decision overturned Donald Trump's attempt to eliminate DACA, declaring this racist attack by Trump to be "arbitrary and capricious," and therefore lacking any legal status. Today marks a major victory for the movement that started in Minneapolis fighting for justice for George Floyd and all victims of racist police brutality as well as a long-fought victory for the immigrant rights movement in which millions of undocumented American immigrants and their supporters took over the streets of cities across the nation.

This is a victory of the movement, not of the courts. This victory belongs to all the undocumented immigrant youth and communities that have been fighting for years for DACA and against deportations. This is a victory for the millions of people in the streets now who are fighting against racist police brutality, who are fighting for dignity and equality. This is a victory for every young person yearning to breathe free, against Trump and the racist divisions he stands for.

Aside from the celebrations well-earned by our movement today, this is a time to recognize how powerful our integrated movement can be when we are fighting together, the movement against racist inequality and police brutality led

by black youth and their supporters and the movement for immigrant rights led by Latina/o, and immigrant communities! Minneapolis has inspired a historic movement that has won a set of victories nationwide and made DACA's victory today possible. Despite the lulls and efforts of politicians to slow down and to stop the movement, we have not stopped fighting. We should use this victory to continue building our movement fighting in the streets.

In less than a month this new mass movement for civil rights and social justice has changed more history for the better in the United States than all the speechifying and maneuvers of the politicians in the last fifty years.

The Supreme Court's decision, led by Chief Justice Roberts, is a recognition of how explosive a negative decision on DACA would have been, provoking the anger of the Latina/o and immigrant communities in this nation to qualitatively escalate an integrated struggle in the most historic movement in America for racial equality since the civil rights movement of 1960's.

The Supreme Court recognized that danger. We should show the political establishments in this nation that we are nowhere near done fighting, but in fact are

emboldened to build on this victory to win the DREAM Act and demand full citizenship rights for all immigrants, to demand an end to the caging of children and families at the border, to demand asylum for those seeking relief at the border. But also, this decision should make clear to us that our movement really does have the power to strip racist police of their power and jail all killer cops. We also have the power to restore the gains of the civil rights movement of the sixties led by Martin Luther King. We can fight to restore affirmative action and integration programs. We can defend public education. We can close the gap of racial and economic inequality in America.

Even more, if we maintain our independent and heroic struggle, we can defeat the greatest immediate threat to democracy and equality in America, by forcing Donald Trump and Mike Pence, out of office NOW, without suffering another day, week, or months of Trump's outrages and his repeated threats to turn his presidency into a tyranny.

The real power is in the streets and we should set our sights high in what is possible to accomplish now. Let's keep fighting!
